

# KOSKISEN THIN BIRCH

## Interior

Decorative, flexible and versatile thin birch throughout panels

Hanson Special Thin Interior Birch Plywood is a strong yet flexible cross banded plywood produced entirely from Birch veneer with joint free faces.

This plywood is produced using an interior glue, making it suitable for cutting with a laser.

Being sourced from Finland this product is allowed 100% PEFC accreditation (Programme for the Endorsement of Forest Certification).

### SPECIFICATION DETAIL
