

SterlingOSB® Zero® OSB3

Highly versatile board for structural use in load bearing dry or humid conditions.

- The first and only UK-made, zero-added formaldehyde OSB
- Uniform, high quality panels
- No knots, voids or de-laminating problems
- Easy to work with
- Stronger and tougher than most softwood plywood
- Nails can be driven as close as 8mm from panel edge without splitting
- Can be finished with most popular surface treatments

Use in dry conditions

- DIY projects
- Garden sheds
- Packaging and pallets
- Shelving / boxing in
- Internal hoarding
- Exhibition displays
- Built-in furniture
- Interior decorative

Use in humid conditions

- Site hoardings
- Agricultural buildings
- Caravans
- Portable buildings
- Flooring
- Wall sheathing
- Flat and pitched roofs
- Timber frame
